HOW IT WORKS

Sound Healing Energy finds you no matter where you are on the planet. It is a proven way to heal your present, past, or future. Healing yourself without the boundaries of time, space, or human limitations has been a part of our human existence from the beginning of time. Because the magnetic energy (biofield) is part of our universe, there is no way to interfere with the positive healing effects of Distance Sound Healing.

YOUR LIFE PURPOSE

Every individual has unique gifts and a life mission that is ours alone to fulfill. These gifts are something that only YOU can bring to the world. You have a single and vital piece of the puzzle to add to the picture of life on earth. So, you can see why it is essential that you (and all of us) live your life to the fullest and follow the path of your purpose!

SOUND HEALING AND YOUR ENERGY

Every person vibrates at a specific rate of frequency. This vibratory frequency helps us reach our full potential and supports optimal our well-being. When you harmonize to this rate of vibration, you bring harmony into your life. In this harmonious state you manifest peace, energy, prosperity, abundance, and vital health on every level. You clear away the distortion of life making more room for who you are beyond blocks, programming, limits, insecurities, confusion, etc.

CONNECTING TO THE SOURCE

Distance Sound Healing Sessions connects you to your infinite source energy. This source energy is the part of you that knows all, sees all and understands why things happen the way they do. Your source energy knows what you need to fulfill your heart's desires, even if your daily conscious mind does not. Sound Healing Sessions offer you're the opportunity to tap into the love, power, and wisdom that is your "all-knowing state."

These sessions can inspire and guide you to make the right decisions, manifest what you need, and create better outcomes in life than you ever thought possible. As a result, you are more in sync with your ability to manifest joy and reach your full potential.

In your Distance Sound Healing Session, we co-create your dreams, integrating your soul's consciousness to release trauma and old negative thought patterns. As a result, participants typically experience a sense of peace and wholeness.

DISTANCE SOUND HEALING

SCIENCE AND DISTANCE HEALING

Science and Distance Healing are not in conflict, in fact, they work together. It is a proven fact that everything is energy. Along with that, scientists are showing the existence and effectiveness of distance healing.

Many prominent Scientists like Dr. Elizabeth Targ, the Mind/Body Medical Institute in Chestnut Hill, MA, Duke University Medical Center in North Carolina and the California Pacific Medical Center in San Francisco are all discovering remarkable results in their respective studies. Every culture employs some form of Distance Healing or Sound Healing. Most people are familiar with the terms "prayer," "chanting," or "meditation." These practices may be considered forms of Distance Healing.

YOUR POWER AND WISDOM

Healing via Distance Healing Sound Healing can encompass a vast number of healing modalities that have their roots in ancient wisdom and modern medical advances. The gem bowls I share with you in a session harmonize and integrate your being on a soul level and cellular level. These particular crystal bowls have only been around for the last five years. Their beautiful sound is a result of the combining of the frequency of healing sound with crystal medicine. The crystal bowls promote healing within and without your body by affecting your auric field on multiple levels.

There is no limit to the healing energy you have access to during your Distance Sound Healing Sessions. The power of the universe is available to you, and your inherent source wisdom knows what you require.

GETTING STARTED WITH YOUR SESSION

Here is a point-by-point overview of a Distance Healing Sound Healing Session

1. In an initial call, we communicate about any issues, concerns or questions you may have. I offer an Oracle Card reading of guided intentions to assist you in setting your intention for our session.
2. We set a time for the actual Energy Distance Healing Sound Transmission. We both focus on your intentions before the start time of your session.
3. You set aside quiet time and get comfortable. You may also choose to go about your usual daily routine. It is recommended, however, for the first few times you do a Distance Sound Healing Session that you stop normal activities and focus on the sacred time set aside for your Sound Healing Session.
4. I record the Sound Healing Music with a voice over as you receive the Distance Healing transmission. You will have a play-by-play account of what was happening during this portion of your healing Session on the recording.
5. At the conclusion of your Session, I perform the journeying and connecting portion of your Session in silence. While I work in silence, you have the opportunity to experience yourself in the "all-knowing state."
6. I record for summary or reading of what happened during your Distance Healing Sound Healing Session. If you're available, sometimes this is done while we talk on the phone.
7. You receive an MP3 recording of your Distance Sound Healing via email.
8. You contact me with questions or comments at any time.

RECOMMENDATIONS

Before Your Distance Sound Healing Session: Think about any specific questions. In meditation or quiet time, ask for help in setting your intention for the session. Or, ask for clarity on your purpose in scheduling a Distance Sound Healing Session.

IT'S OK

It's ok if you don't know or can't put into words the reason for your Distance Sound Healing Session. It is common to "know you must do this."

It's ok if you're not aware of the transmission of Healing Energy. You might feel tingles or sensations. You might fall asleep or become energetic. You might see colors or hear sounds. You might experience an expanded state of awareness or active internal chatter. You may merely zone out and not be aware of time.

YOUR EXPERIENCE

It is impossible to say what your personal experience might be. Everyone experiences Sound Healing Energy in their way. Keep in mind that it for some people, it is natural not to feel anything at the time. Be assured that the Sound Healing Energy is still doing its job, no matter what.

Be aware that you are entering into what I call the "time/space" continuum. You will be transcending the limitations of time and distance during your Distance Sound Healing Session. The experience is different for everyone. The sound from the crystal bowls becomes part of you. In this oneness, we co-create a space that is specific to your soul's blueprint. Sound Healing Energy is bringing forth energies stuck in your past or projected into your future, back into your "NOW."

DISTANCE SOUND HEALING

You may encounter past life energy or your angels, ancestors, people who have passed over, your guides, or power animals, etc., during your Sound Healing Session. You may be aware of this, but if not, I will tell you about it in the Summary. Your mind may follow a specific path, if so, just go with the flow. Remember, you don't need to worry about anything. Trust yourself, "like a falling apple which triggers a knowing once it hits."
